Art Unit: 1771

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Rejections not maintained are withdrawn.

Response to Amendment

3. Claims 1, 19, 20, 22-24 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zeitler et al. (US 5288549) in view of Krech et al. (US 6063824) and Unchida st al. (US 5061778), substantially for the reasons set forth in section 3 of Paper No. 14, together with the following additional observations.

It is noted that the newly amended claim 1 now recites that the molding comprises a reaction product with an initial ratio of isocyanate groups to isocyanate reactive groups greater than 1.06:1. The Examiner reiterates that Zeitler teaches a ratio of isocyanate groups to isocyanate reactive groups in a range from 0.85:1 to 1.1:1. As such, Zeitler anticipates the instant claimed ratio (Paper No. 14, page 2, last paragraph).

With respect to Applicants' Response arguing that the newly amended claims 1 and 19 do not just cite a use for the damping element, they are functional limitations on the composite damping element (Response, pages 4-5, bridging paragraph), and Zeitler's composite element in dashboards is not to be continuously and repeatedly compressed; further, Zeitler's molding (or skin) is not used for attachment purpose

Application/Control Number: 09/456,371

Art Unit: 1771

(Response, page 5, first complete paragraph), the Examiner notes that the prior art combination discloses the composite element as claimed. It should be noted that the fact that Applicants use the composite element for a different purpose does not alter the conclusion that its use in a prior device would be *prima facie* obvious from the purpose disclosed in the reference. Further, it is noted that Zeitler teaches that his composite elements "are of considerable industrial importance, in particular in the automotive industry" for various cushioning (i.e., damping) applications, such as seat cushions, etc. (column 1, lines 35-37). As such, it would have been obvious to one skilled in the art of motor vehicles to modify the shape of Zeitler's composite element for various damping devices, motivated by the desire to absorb impact forces.

With respect to Applicants' argument that there is no motivation to combine the references of Zeitler and Krech (Response, page 6, first complete paragraph), the Examiner notes that the references are combinable because they are from the same field of endeavor, i.e., microcellular damping systems.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Application/Control Number: 09/456,371

Art Unit: 1771

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Victor S Chang whose telephone number is 703-605-

4296. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Terrel H Morris can be reached on 703-308-2414. The fax phone numbers

for the organization where this application or proceeding is assigned are 703-872-9310

for regular communications and 703-872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is 703-308-

0661.
